<sup>1</sup>Heat treated products are acceptable following Chapter 10.4 of the OIE Terrestrial Animal Health Code (2012) provided that in addition to the Veterinary Health Certificate, the Competent Authority will include in the certification the following:

1. The temperature and duration of heating or pasteurization of products; and
2. There is no co-mingling of raw materials with any other materials of animal origin.

<sup>2</sup>Presentation of International Veterinary Certificate attesting that the entire consignment of fresh meat comes from poultry free from Notifiable Avian Influenza (NAI) since they were hatched for the past 21 days; have been slaughtered in an approved abattoir in a country free on export from NAI; and have been transported in a refrigerated container.
